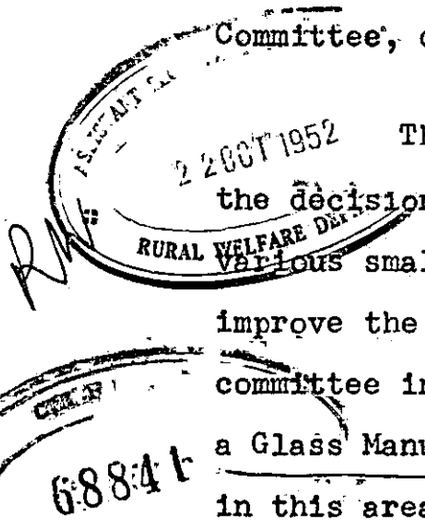
Dated 12/12/51 1952

FURTHER PAPERS.

Department.	Number.	Series.	Date.

Proceedings of the meeting of Mulki Firka Ad-Hoc Committee, dated 27- 9- 1952.



This meeting records with profound satisfaction the decision of the Government of Madras to encourage various small scale industries in this State in order to improve the economic conditions of the masses. This committee in the mean while plead the Government to start a Glass Manufacturing Factory in this Firka as the people in this area are idle for the major part of the year. Hence it is quite essential to have such type of Government controlled Factory in order to eradicate un-employment and poverty. The necessary sand to manufacture glass is available in abundance in this area and in fact the same has been now being taken to Government Factory at Kasaragod.

The necessary investigation to start such a small scale industry, if conducted in this Firka will definitely decide in favour of our request.

Resolution moved by Sri N. T. Suvarna and seconded by Sri M. Lakshman Bangera unainmously passed.

PRESIDENT,

Mulki Firka Ad-Hoc Committee, Mulki.

Issue x clo 1/11/52

Memo No. 68841 RWII/52-5 Dt/12.12.52.

Industries - Glass industry - Starting of a Grant Contd Glass factory in Rulki Firka - Suggestion of Rulki Firka Adhoc committee.

Ref:- From the President, Rulki Firka Adhoc Committee, Rulki dated nil.

In this proceedings of dt 27.9.52 Rulki Firka Adhoc committee have requested the Govt to establish a Govt controlled Glass factory in their firka in order to eradicate unemployment and poverty of the local population. The President of the Committee is informed that a Govt Glass Bangle and Bead training centre has already been working at Kasargod in the South Kanara dt since 1950 and training 15 students every year in the art of manufacturing Glass Bangle and Beads and other glasswares such as bottles, Chimn It is not therefore considered necessary or expedient

to Kenya second similar centre in Mulki Finca. It is suggested that the Adhoc committee might, however, encourage some of the trainees who had completed their course at the Nasaigoa centre to set up production units of their own in the Mulki finca by extending to them whatever local assistance might be required.
